GETTING READY FOR CHRISTMAS GIFT GIVING

WASHINGTON, Dec. 2.—During the next four weeks Uncle Sam's infant prodigy—the parcels post service—will be called upon to perform an herculean task in connection with the transportation and delivery of millions of Christmas gifts. Postmaster General Burleson, who is responsible for the conduct of this service, has made extraordinary preparations to prevent congestion in postoffices and to insure prompt delivery of these parcels. Several thousand additional employees will be added to the force during the holiday season and the collection and delivery equipment will be augmented wherever necessary. Every possible effort has been made to strengthen those parts of the postal organization which will be under the greatest strain, and Mr. Burleson stated today that with these special arrangements he is confident of the ability of the service to handle successfully the avalanche of parcels that will be thrown upon it during the rush period.

AMUSEMENTS

BUTLER THEATER.

At the Butler this evening a very interesting program of pictures will be shown, as follows: "The End of the Run," a Kalest railroad drama; "Alkali Ike and the Wild Man," an Egansey comedy, with Augustus Carney, the Gibraltar of fun, in the title role, and a Vitagraph two-reel feature entitled "The Next Generation." A young ship designer finds a flaw in the plans which his uncle has made for a new liner. Yet the older man, jealous of his nephew's skill, succeeds in having the great four-funneled ship launched. In midocean, with gaiety at its height, the disastrous shock comes. Then panic, fighting for the lifeboats. Fearful, powerful realism here. Tomorrow, Pathe Weekly, "Who Will Marry Mary," and a two-reel Vitagraph comedy, "The Pirates." Sunday, a three-reel Kalest, "Motion Picture dancing lessons," showing the Tango, Turkey Trot and Hesitation waltz.—Adv.

WILL BUILD A MILL 40 MILES FROM MOAB

DENVER, Dec. 2.—Representatives of the Mont Mesa Mining and Milling company, a corporation to develop Utah carbonate deposits, have purchased machinery for a radium refinery in Grand Junction and for a conversion mill to be erected forty miles south of Moab, Utah, in San Juan county, midway between the Blue and La Salle mountains.

Coffee

A roasted coffee bean is as porous as a sponge; it can't keep in its aroma, or keep out odors, if exposed to air. Leaving it whole, to be ground as used, does not keep it fresh.

The modern scientific way, as used with Schilling's Best, is to granulate it promptly after roasting and preserve it in airtight cans.

1-lb., 2-lb. and 2 1/2-lb. cans—and moneyback.

Moneyback means Schilling's Best; and it means the grocer returns a dissatisfied customer's money as quick as he can.

What happens then? She isn't dissatisfied; can't be.

Who is? Nobody. The grocer has lost nothing; and she has lost nothing. That's how we look at it.

Schilling's Best was your first definition of moneyback.
